4. Click on Software on the left menu, and find all available software including Operating Systems, Productivity Tools, and more.

Account Issues

If you see any of the following

The screenshot shows the Microsoft Azure Education Overview page. At the top, there is a navigation bar with the Microsoft Azure logo, a search bar, and several icons. Below the navigation bar, the page title is "Education | Overview". On the left, there is a sidebar with links for "Overview", "Learning resources" (which includes "Roles", "Software", and "Learning"), and "Need help?" (which includes "Support"). The main content area has tabs for "Get started" and "Overview", with "Overview" being the active tab. A prominent red error message box at the top states: "We are sorry, we couldn't verify you are a student. Please start the academic verification process here." Below this, there is a section titled "Sign up for Azure for students and start building the future." It mentions that students 18 and up can get \$100 in free credits and provides a "Sign up now" button. Further down, there are two sections: "Popular solutions" (with links to "Deploy a Docker container", "Create your first Node.js app", and "Create and train a Machine Learning model") and "Free Services" (with links to "Azure Virtual Machines – Windows", "Azure Blob Storage", and "Computer Vision").

Unable to confirm your University ID
